

YOUR SACRED WEALTH CODE GUIDE

If you have a transformational business, it's likely that your core purpose in life is to help people. Transformational business owners are some of the most inspiring people in the world. Why then do so many of them struggle to make ends meet?

You should be able to make a difference AND a living.

Your Soul already knows what you're supposed to be doing to make money and create wealth. What most people don't know, however, is that there are unique personal codes available to every one of us that can act as a catalyst for prosperity and growth if we know how to tap into them.

By following your Vedic Astrology and knowing your Sacred Wealth Code you can find your unique gifts and the type of work that you can easily thrive in, and that's where you will attract the ideal high paying clients and customers.

Vedic Astrology shines a light on your sweet spot, that intersection of what you are divinely appointed to do, who you are divinely appointed to serve, and how you are meant to blend those for expansion and wealth.

This book is meant to show you how to discover your own Sacred Wealth Code so you can attract the ideal client and customers that you are truly meant to serve and take your conscious business to the next level.

By following my own Sacred Wealth Code I took my business to a steady six figures doing the work in the world I was meant for and making the difference I'm here to make.

It wasn't always this way... 10 yrs ago I had a world class yoga and healing arts center that had 6-figure sales, but I was not taking home enough money to pay the bills. I had a lot of sales and no profits. In fact, even though I had a seemingly successful business, each month I was going further in debt.

I was on purpose using my gifts to do the work I was meant to do, but at a huge cost because I was not following my Sacred Wealth Code.

Working that hard and making no money is a heavy burden to carry. I was in so much pain... I was in the Dark Night Of The Soul. I was trying to run my business in a spiritual way, but it was failing and my world was crumbling.

Having tried everything to make it work, or so I thought, I ended up losing the business and my marriage. I was a single parent and was totally burnt out mentally, physically, and emotionally.

Thanks to some deep spiritual work, I realized that this had all happened because I was not following my Sacred Wealth Code. In fact, I was working from the shadow side of my wealth code, which included being over responsible and believing that to be successful I had to do it all alone. At the time I was unconsciously setting myself up to go broke and fail, instead of succeed and create a lot of money for myself.

Realizing that I was out of alignment with my Sacred Wealth Code began my journey to realign what I was doing and the way I was doing it to manifest more money while still honoring my purpose.

I picked myself back up, grateful to know that there was a way to fix it all, and started following my Sacred Wealth Code. I quickly attracted my ideal high paying clients and created **a profitable business within just six months.**

It's possible for you too.

Know Your Sacred Wealth Code

Your soul already knows what you are supposed to be doing...

Everyone has their own unique wiring for making money based on their Soul Blueprint. Vedic Astrology is a scientific lens to look through that reveals our Soul Blueprint. It is not about prediction. It's about understanding and following your soul's choices.

Your Sacred Wealth Code is an important part of your Blueprint and if you're not following it, chances are you are not making the money you want or you're making it in a way that does not feel authentic to you.

The thing is...

If you tune in, pay attention, and really get honest with yourself you can "feel" when you're not following it or not. If you're happy and thriving in your career and business, have ideal clients and customers, and a steady flow of income then you're on track with your Sacred Wealth Code.

If you're frustrated and unhappy in your career or business, lack clarity, are struggling to find your ideal high paying clients and customers, and don't have the cash flow you want... you're not following your Sacred Wealth Code.

[Yes! I Want My Sacred Wealth Code Reading](#)

There are 5 key steps that you must take to start following your Sacred Wealth Code now, so that you can open the valve to consciously creating your cash flow and to finally stop worrying about money.

1. Your big WHY: Why = Purpose

It is crucial to know why you want the money. Why you want to take your business to the next level, have more ideal clients, and create more wealth. Then you are connected to purpose and purpose will pull you forward.

For me, it's all about freedom and making a difference. When my business was struggling I felt trapped. I had no time and no money. I longed for a sense of freedom to travel with my kids, buy a home, and go on a retreat. I was making a difference, but was too tired to make the difference I really wanted to make for the people closest to me.

Your soul knows your big WHY. Your heart is the pathway to your soul. Get something to write with and record your answers.

Take a few deep breaths.

Tune in to your heart by putting your hand on your heart or breathing as if you are breathing through your heart.

Tell yourself the truth:

: Why do I want to take my business to the next level and consciously create more money?

: Why is that important to me?

: What will that make possible for me?

Great!

Now you have your WHY! Read this daily and keep it posted in front of you where you work. I go deeper into defining and activating your WHY

[in my Soulutionary Mentoring and Mapping services,](#)

but I promise you, if you do stay connected with your why you will be on the path to your Sacred Wealth Code and attracting more ideal high paying clients, and creating more wealth.

2. Unlock your passion so you can deliver the most value to your ideal clients and customers.

Passion comes from your soul and is like jet fuel for your Sacred Wealth Code. When you're in your passion you have a direct connection and are activating your Sacred Wealth Code, you're poised to attract your ideal clients and customers, increase your profits, and thrive doing the work you were meant for.

When you're not in your passion you're not even near an onramp to your Sacred Wealth Code and are tired and broke.

Take a few deep breaths.

Tune in to your heart by putting your hand on your heart or breathing as if you are breathing through your heart.

Tell yourself the truth:

- : What is your Passion?
- : What inspires you?
- : What lights you on fire?
- : What do you daydream of?

It's crucial to take action to be in your passion daily so you are connected to your Sacred Wealth Code and can deliver the most value to the clients and customers you are here to serve.

Answer this question daily to discover your Inspired Action. Write it down and DO IT!

What's one Inspired Action I can take today to be in my passion?

3. Activate your Wealth Gifts

You have gifts and talents. There are things that you are either naturally good at or have practiced and mastered that actually turn you on. You are brilliant, alive, and authentically YOU when you are using your gifts in your business. This is what your high paying clients come to you for.

When you are just doing the things you are good at but don't love to do, or doing what you think you have to do, you're not activating your gifts. You're not doing the work you were meant to do. You're not attracting your ideal clients. You're not activating your Sacred Wealth Code and making more money.

What are your greatest gifts?

I can do so many things, and that is what got me to fail at my yoga center. Just because I can administrate, organize, and facilitate, doesn't mean I thrive when I do them. Now that I focus on my gifts, of clarity, deep connection, intuition, strategy, finding creative solutions and making them a practical reality, I have a thriving business.

What are your gifts?

Tune in to your heart, as I described above, so you are connected with your soul and do a stream of consciousness writing exercise to find your answer. Just let it flow and then look at your list and pick your top five gifts.

You can also send an email out to a few friends and ask them this question:

What do you see as my special gifts?

This can be quite telling. In a [Sacred Wealth Code Reading](#) with me we pinpoint your true gifts and how to turn them into cash, but if you make it a priority to use your gifts in your business you will be activating your Sacred Wealth Code and doing more of what you were meant to do. This is what your high paying clients really want from you and they will pay you for it!

4. Breakthrough the number one fear that is holding you back from consciously creating the money you want.

What keeps you from following your Sacred Wealth Code and making conscious choices about increasing your business and money, is **limiting beliefs**. These beliefs often show up as fears. You acquired most of these beliefs when you were a child as a strategy to keep you safe, loved, or valued. They are not part of your programming in your Sacred Wealth Code. They are not your true soul coding. You acquired them and you can release them.

If you're struggling with something, that means you simply don't understand something about what you're struggling with. Your limiting beliefs are like parts of you that are casting votes behind the scenes **against** what you want.

Here's the great thing...

You can't have a problem without having a solution as well. They always come together. Awareness precedes change, and to change what's not working you have to be aware that it's not working. If you don't have the ideal clients and customers you want then it's time for something to change.

Yes! I Want My Sacred Wealth Code Reading

Tune in and answer these questions. Remember, your Soul already knows...

- : What is the #1 challenge that is stopping you from taking your business to the next level and attracting high paying clients?
- : What are you afraid of?
- : Is what you are afraid of presently true? Not true in the past, but true now?

Tell yourself the truth:

What's one Inspired Action I can take to support myself in overcoming this fear? Take that action! You can't afford not to. The only thing holding you back is YOU, and you have the power to get in sync with your Sacred Wealth Code.

In my [Soulutionary Mentoring and Mapping services](#) we take it deeper and breakthrough all your limiting beliefs around wealth, money, worthiness, value, and being seen in the world; to name a few. If you take the action you came up with above, you will be taking a powerful step in the direction of creating more wealth.

5. Discover your Sacred Wealth Archetypes to activate your Sacred Wealth Code.

Each planet in Vedic Astrology represents several archetypes. The combination and placement of these planets indicates your Sacred Wealth Code. Your gifts, passions, and purpose that you identified above will give you some valuable clues to which archetypes are yours. Pick the ones that most resonate for you and then bring them into the way you do business.

If you are a Connector - Teacher - Organizer then you will want to create structures to organize what is important to you and your clients. Make sure you are connecting deeply with your clients so you know their deeper desires and needs, and with your unique expertise teach them the principals to get them the results they are looking for.
